INVITATION

Dear Colleagues,

As the Emergency Physicians Association of Turkey (EPAT), which has carried out many scientific organizations in almost every field of medicine, especially in emergency services and all emergency healthcare professionals working in the field, we are preparing to celebrate our 25th anniversary next year with a magnificent organization.

In the 100th year of our Republic, we experienced the pleasure and pride of organizing a magnificent event by bringing together all the world's emergency medicine scientists in Turkey with the WACEM2023 Congress.

With this excitement, we look forward to organizing the 20th National Emergency Medicine, 11th Intercontinental Emergency Medicine Congress, 11th International Critical Care and Emergency Medicine Congress with you on 16-19 May 2024, which coincides with the Commemoration of Atatürk, Youth and Sports Day.

In our congress, we aim to come together to evaluate, inform and develop our country's leading role and experiences in the world by sharing the developments in the field of emergency medicine with very surprising invited speakers.

With special surprises and raffles for our 25th anniversary, we wish to color our congress, where science is intertwined with art, sports, culture and entertainment, in every aspect and to take a place in the memory of you, our esteemed participants.

We hope to attract the attention of emergency medicine specialists, residents, academicians, pre-hospital healthcare professionals, relevant institutions, and sector representatives, especially in the light of the developments in the field of pharmaceuticals and medical devices in recent years.

You can find detailed information about the congress on ATUDER official website and www.icem24.com.

Best regards,

Prof. Dr. Başar CANDER
